

ARCHITECTURE. GREEN. HEALTH.

Combining interior architecture & design, landscape and healthcare to provide a better environment for healthworkers, patients and their relatives.

Environment for people.

ARCHITECTURE

Creating connection.

GREEN

Environment for patients.

HEALTH

"Views of greenery from inside and outside have a stress-reducing effect on patients and employees."

"Public vegetable gardens and parks invite to join activities which leads to less loneliness and more social contact."

HOW TO REALIZE THE GREEN CONNECTION?
